When support and feedback about someone comes from no others than: **Sasha, Tiesto, Hernan Cattaneo, Dave Seaman, Nick Warren, Anthony Pappa, G-Pal, Pole Folder, Gabriel & Dresden, Flash Brothers, among others**, is not necessary to say anything else..

This is what happened last years about Federico Epis, **great feedback, big support and big reactions** about his work as producer from some of the biggest names in the electronic music industry.

His most recent **notable achievement** has been the inclusion of one of his latest tracks called "**Brasilia**" which was **featured on one of the most prestigious radio shows in the world** (The Essential Selection on Radio 1, UK) in a special live set performed by the man himself **DJ Sasha at Club Amnesia, Ibiza on August 11th 2007.**

Another **huge step** in his career has been the sign of some of his tracks on the world's **most legendary, well known and biggest labels in the world** like **Global Underground (UK)** and **Audio Therapy (UK)**

With his releases **consistently being played by the worlds top dj's**, this latest achievement has continued to propel Federico to the next level.

Besides that, **in only 4 years as producer** he has signed more than **30 releases** with an outstanding list of big labels like:

Global Underground (UK)  
AudioTherapy (UK)  
GrooveCollections (Netherland)  
Mashtronic Records (Germany)  
Swift Records (Greece)  
Pure Substance Records (Malaysia)  
Acute Recordings (USA)  
Dubcoast Records (USA)  
Fiberline Audio (USA)  
Atlant Recordings (France)  
Soundtribe Records (USA)

Red Circle Recordings (USA)  
Bellarine Recordings (Australia)  
Sirion Records (Switzerland)  
Progrezo Records (Colombia)  
Mestiza Records (Argentina)  
MuzikXpress Records (Uruguay)  
Lake Effect Recordings (USA)  
Reticent Records (Canada)  
Groovecolletion Records (Netherlands)

And most important of all, **being required by several clubs around the world** is something that is usual on this days, being played yet in several countries around the world.
